# Payments to Idaho Health Care Practitioners

This is a listing of all disclosed payments listed for Idaho

## Has Your Health Professional Received Drug Company Money?

Search by name, by affiliated business or institution, or by city.

Name

State

Examples: [Jones](#), [University of Texas](#), [Brooklyn](#)

Only showing payments over \$250. [See all payments »](#)

[Important notes about this list.](#)

**Name/Payee** includes both the practitioner listed by the company and the entity receiving payment. If only one name is listed, it represents both the listed practitioner and payee.

**Notes**

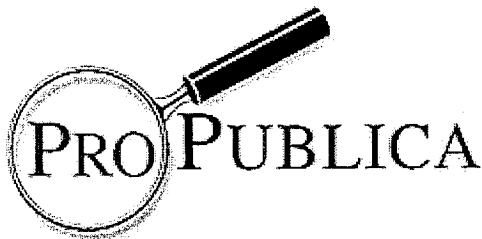

Companies are continually updating their data, so the most recent additions may not be included in our database. The reports include both the name of the health provider who performed the service as well as the entity paid. They may be different.

A physician on the list may be getting money from other companies that have yet to disclose payments. Practitioner names and addresses (city/state) are listed as the companies released them and may vary. For instance, some companies include a middle initial, and others do not. Some companies also list different cities for the same individual. This may happen because professionals may have practices in multiple locations or because they provided different addresses for payment. [Read more about the data.](#)

**Notes**

Companies are continually updating their data, so the most recent additions may not be included in our database. The reports include both the name of the health provider who performed the service as well as the entity paid. They may be different.

A physician on the list may be getting money from other companies that have yet to disclose payments. Practitioner names and addresses (city/state) are listed as the companies released them and may vary. For instance, some companies include a middle initial, and others do not. Some companies also list different cities for the same individual. This may happen because professionals may have practices in multiple locations or because they provided different addresses for payment. [Read more about the data.](#)
